INTERNAL FALL SAFETY NETS

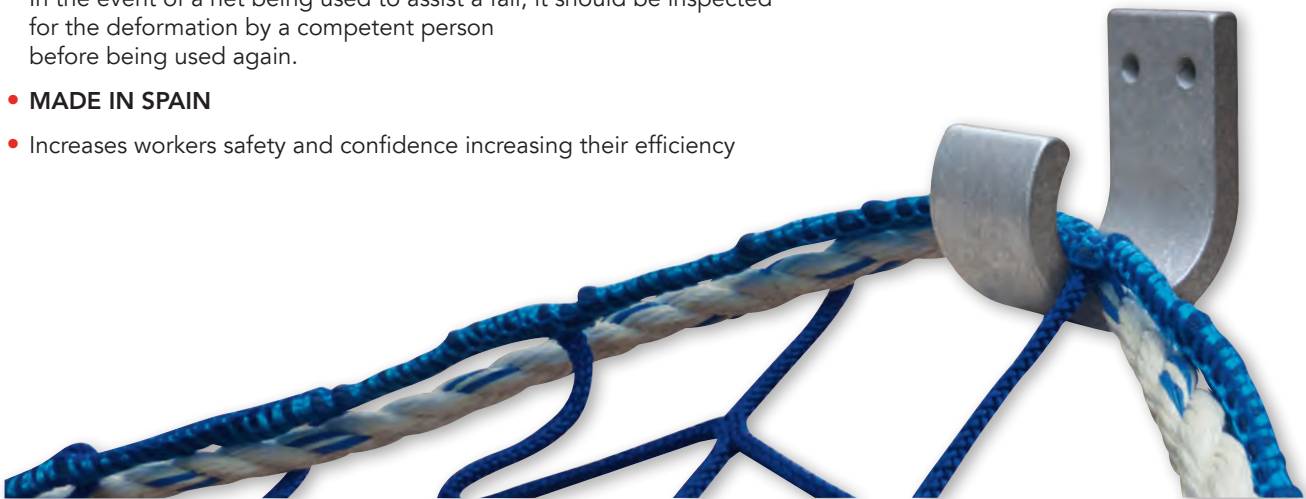

SAFETY NET SPECIFICATION

SAFETY NETS

INTERNAL FALL SAFETY NETS

- An economical and easy way to comply with height safety requirements. All our nets are manufactured in Spain to EN1263-1.
- Unique easy-bracket system makes installation simple, quick and easy. Brackets fix below the top plate meaning there is no interference while placing roof trusses in residential applications.
- Removes the risk of working at heights within a building
- 4 year lifespan. Nets must be tested once in the first 2 years of use and then annually thereafter. Each net comes with 3 test meshes attached. In the event of a net being used to assist a fall, it should be inspected for the deformation by a competent person before being used again.
- **MADE IN SPAIN**
- Increases workers safety and confidence increasing their efficiency
